WORK EXPERIENCE

- **SDE Intern @ MHTECHIN (01/2024-06/2024)**

1. Designed and developed 3 websites with WordPress Elementor, specializing in E-commerce & EdTech. Achieved a 90% client selection rate, deploying 2 websites successfully.
2. Experienced in Flutter and JIRA through collaborative projects. Enhanced creativity and communication skills by writing tech blogs and client interactions.

- **SDE Intern @OctaNet (09/2023 – 10/2023)**

- 1.Started my Journey with Python Development, Which led to landing a rewarding internship
- 2.Thrived in various exciting roles and projects, thanks to this valuable experience.

- **SDE Intern @TechnoHacks (08/2023-09/2023)**

1. My C++ coding skills played a crucial role in securing my place in this internship.
2. Additionally, I have successfully tackled challenging tasks during my preparation, which has significantly improved both my problem-solving and coding abilities.

PROJECTS

- **Activity-Tracker (A Chrome Extension)| [URL](#)**

- This Chrome extension tracks your website usage in real-time, exposing hidden time sinks. Restrict distracting sites, set usage limits, and reclaim your productivity. 14 days of development, countless hours - all to empower yours
- React & RubyonRails power this Chrome extension.

- **E-Commerce website|[URL](#)**

- Created SRS, Developed a Live website for the client, investing 50+ hours while guiding and leading a team under the supervision of MHTECHIN.
- The website's core was built on WordPress, complemented by HTML, CSS, JavaScript, and PHP components.

- **Scroll Day & Night | [URL](#)**

- Created - Developed a website using Elementor with <HTML> tags, integrated JavaScript, and custom CSS.
- Implemented animated scroll effects transitioning from day to night, simulating sunrise and sunset

COMPETITIVE PROGRAMMING AND DSA

- **Cleared coding round(round 3) in HackOn with Amazon**
- **1st position in Coding Ninja's Secret Cipher competition**
