Programming Languages: C++*, Java, JavaScript, Python
Core Skills: OOPs, Data structures and algorithms, DBMS, OS, Computer Networks
Front-end- HTML, CSS, React.js
Back-end- Ruby on Rails
Technologies/Frameworks: Wordpress, PHP
Platform: VS code, Git, Git-hub

EXPERIENCE

- **SDE Intern @ MHTECHIN (01/2024-06/2024)**
  Spearheaded the design and development of 3 dynamic websites using **WordPress, Elementor**, focusing **E-commerce** and **Ed-tech**. Achieved a **90% client selection rate**, leading to the successful deployment of 2 high-traffic sites.
  Authored comprehensive **technical blogs**, enhancing community engagement and driving a 15% increase in blog traffic. Conducted effective client interactions, translating technical requirements into actionable project plans.

- **SDE Intern @OctaNet (09/2023 – 10/2023)**
  Started my Journey with **Python Development**, Which led to landing a rewarding internship
  Thrived in various exciting roles and projects, thanks to this valuable experience.

- **SDE Intern @TechnoHacks (08/2023-09/2023)**
  My **C++ coding** skills played a crucial role in securing my place in this internship.
  Additionally, I have successfully tackled challenging tasks during my preparation, which has significantly improved both my problem-solving and coding abilities.

PROJECTS

- **Activity-Tracker (A Chrome Extension)| URL**
  Developed a **Chrome extension** to track website usage in **real-time**, highlighting time-consuming activities. The extension enables users to **restrict distracting sites**, **set usage limits**, and improve productivity. This project involved **15+ days** of intensive development, Tech Stack - **React & Ruby on Rails.**

- **My PortFolio | URL**
  Designed a **responsive portfolio** to showcase my projects, achievements, and skill sets,allowing for easy connectivity and professional networking. Tech stack - **React.js, CSS**

- **E-Commerce website| URL**
  Responsible for Creation of SRS and led the complete development of a live e-commerce website for a client, dedicating over 100+ hours. Managed and guided a team from initial planning to final delivery, ensuring high-quality results under the supervision of MHTECHIN, Tech Stack **- WordPress, HTML, CSS, JavaScript & PHP components**.

- **Scroll Day & Night | URL**
  Developed a dynamic website using Elementor, integrating **HTML, JavaScript, and custom CSS**. Implemented animated scroll effects transitioning from day to night, simulating sunrise and sunset to enhance user experience.

COMPETITVE PROGRAMMING AND DSA

- **Cleared coding round(round 3) in HackOn with Amazon**
- **1st position in Coding Ninja's Secret Cipher competition**
